## Winter Exam Prep

This winter, students will take matriculation exams which determine their preparedness to continue with their education. Through the SPACE program, ENP works to support students both educationally and emotionally to prepare for these exams.

The 12th- graders of Tamar Ariel in Netanya are getting

ready for the winter mathematics matriculation exams. These dedicated SPACE participants stay after school to study. ENP wishes them the best of luck!

The 11th-graders at Ort Gutman in Netanya are some of the busiest students around. 11th grade is the most academically challenging year for Israeli high school students. However, SPACE study groups are in full swing to ensure that each participant receives the assistance he or she needs for the matriculation exams right around the corner!
